User Guide for Social Share Extension

Overview:

Social media has become a game changer in this technological world. eCommerce businesses can benefit the most from this trend by enabling users to share their favorite products with their family & friends. We took this opportunity and developed a “Social Share” extension. This extension allows customers or visitors to share their favorite CMS pages, products, and categories on profuse social media platforms like Facebook, Instagram, Google, Whatsapp, Pinterest, and many more.

Social Share

Powered by **Tech9logy Creators**

This exclusive extension allow your customers and visitors to seamlessly share their favourite products, and CMS pages from your Magento store to any social media platform.

ADMIN CAN INTEGRATE VARIOUS SOCIAL MEDIA PLATFORMS ON THEIR SHOPPING SITE.

ADMIN CAN UPLOAD CUSTOM ICONS FOR SOCIAL SHARE FROM THE BACKEND.

IT ALLOWS CUSTOMERS TO SHARE ANY CMS PAGE OF YOUR WEBSITE ON DIFFERENT SOCIAL MEDIA PLATFORMS.

IT ENABLES CUSTOMERS TO SHARE THEIR FAVORITE PRODUCTS ON AVAILABLE SOCIAL MEDIA PLATFORMS.

ADMIN CAN SET THE PAGES ON WHICH OWNER WANTS TO SHOW THE SOCIAL SHARE OPTION TO THE CUSTOMER.

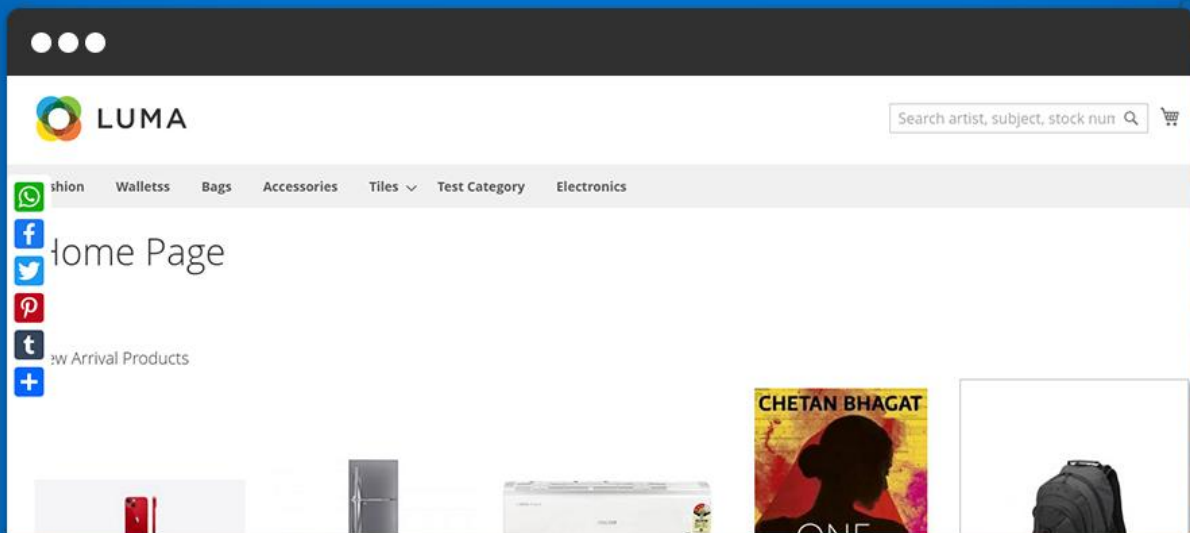

THE MULTI-FUNCTIONAL TOOL WITH STRAIGHTFORWARD AND COMPREHENSIVE SETTINGS.

Features:

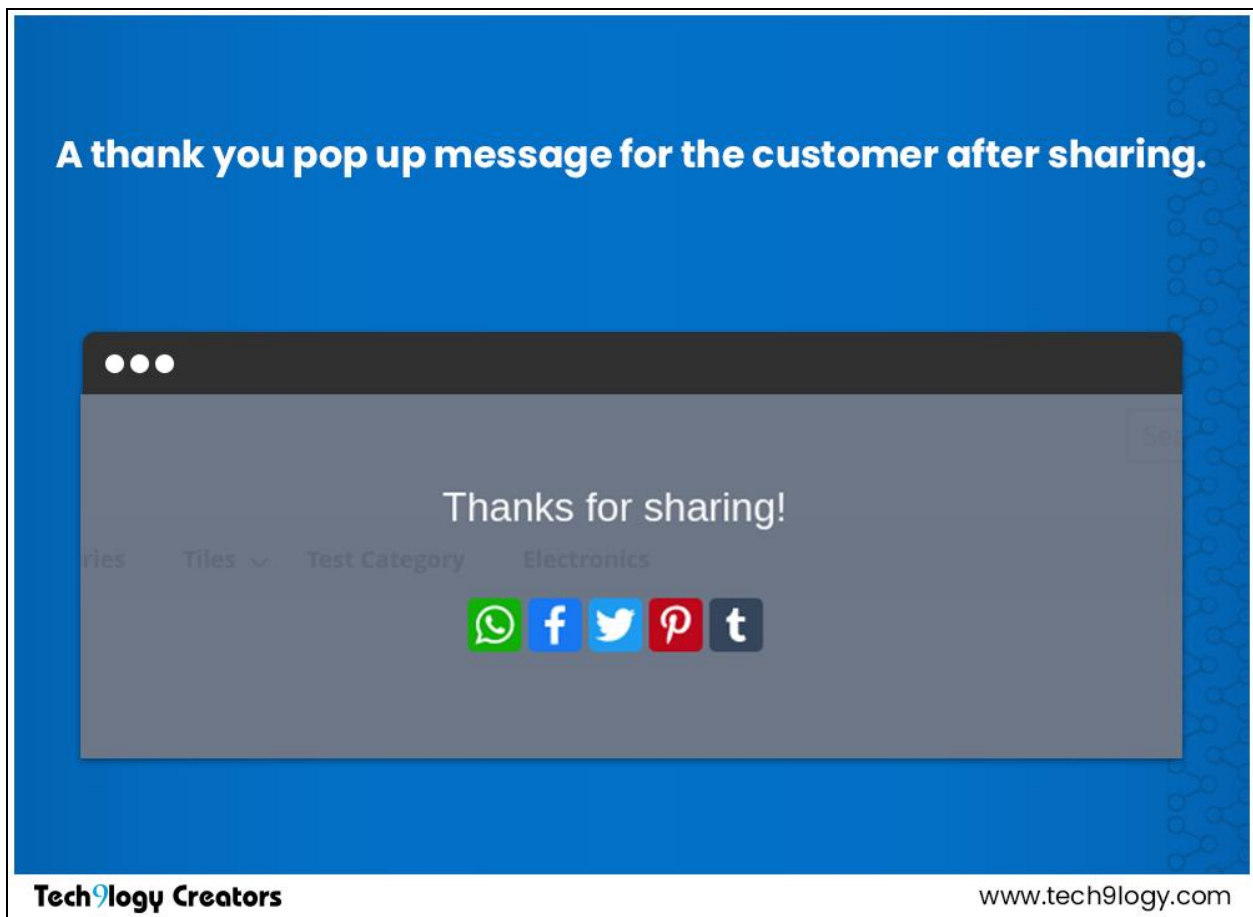

1. Admin can integrate various social media platforms on their shopping site.
2. It allows customers to share any CMS page of your website on different social media platforms.
3. It enables customers to share their favorite products on available social media platforms.
4. Admin can set the pages on which he wants to show the social share option to the customer.
5. Admin can upload custom icons for social share from the backend.
6. Enable social share icons on the product page below the Add to Cart button so that customers can easily interact with social channels.

It allows customers to share any CMS page of your website on different social media platforms.

Specification:

Allow your customers and visitors to seamlessly share their favorite products, categories, and CMS pages from your Magento store on any social media platform. Admin can enable/disable this extension from specific pages from the backend. This extension allows the admin to customize the share icon as per their convenience.

3. Social Share Services

The screenshot shows a configuration window for social share services. At the top, there are three white circles on a dark background. Below them is a header with a back arrow and the text "Whatsapp".

The main configuration area includes:

- Enable** [store view]: A dropdown menu set to "No" with a "Use system value" checkbox checked.
- Image** [store view]: A "Browse..." button, a "Delete Image" checkbox, and a note: "No file selected. If empty, the default icon will be used." There is also a "Use system value" checkbox which is unchecked.

Below the main configuration, there is a list of social media services, each with a dropdown arrow:

- Facebook
- Twitter
- Pinterest
- LinkedIn
- Tumblr
- Add More Sharing Buttons

4. Pages Configuration

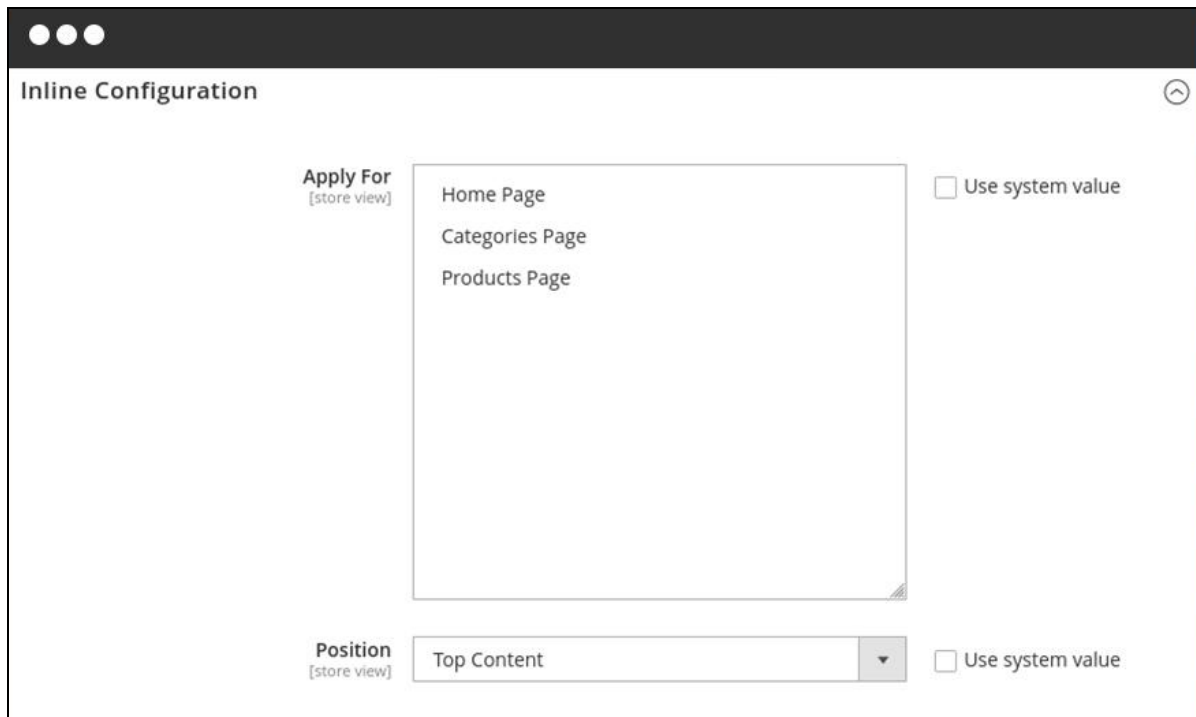

The screenshot shows a configuration window for pages. At the top, there are three white circles on a dark background. Below them is a header with the text "Pages" and a back arrow.

The main configuration area includes:

- Apply For** [store view]: A dropdown menu set to "Select Pages" with a "Use system value" checkbox unchecked.
- Apply for Select Page** [store view]: A list box containing "Products Page", "Categories Page", and "Contact Us" with a "Use system value" checkbox unchecked.
- Apply for CMS Page** [store view]: A list box containing "404 Not Found", "Home page", "Enable Cookies", "Privacy and Cookie Policy", "about-us", "RMA", "RMA Mail Testing", "Thank You", "Help", and "Drops" with a "Use system value" checkbox unchecked.
- By Links** [store view]: A text input field with a "Use system value" checkbox checked.

At the bottom, there is a note: "Please add the links of the pages to enable the social share buttons. One link per line. Example: http://domain.com/blog, http://domain.com/aboutus, http://domain.com/contactus"

Installation Guide:

1. From the Zip file
 - Unzip the zip file in ``app/code/``
 - Enable the module by running ``php bin/magento module:enable``

Tech9logy_Socialsharing`

- Apply database updates by running ``php bin/magento setup:upgrade``
- Flush the cache by running ``php bin/magento cache:flush``

2. Using Composer

- Make the module available in a composer repository for example:
 - private repository ``repo.magento.com``
 - public repository ``packagist.org``
 - public github repository as vcs
- Add the composer repository to the configuration by running ``composer config repositories.repo.magento.com composer https://repo.magento.com/``
- Install the module composer by running ``composer require tech9logy/social-share``
- enable the module by running ``php bin/magento module:enable Tech9logy_Socialsharing``
- apply database updates by running ``php bin/magento setup:upgrade``
- Flush the cache by running ``php bin/magento cache:flush``
