

User & Installation Guide of One Step Checkout

Overview

Are your customers frustrated with the complex checkout process on your Magento 2 store?

Effectively ease the buying process and customize the checkout page for your visitors as per your business needs by installing our latest extension- One Step Checkout. This extension lets you augment the shopping experience and boost customer experience. Seamlessly modify your store by editing the color and text on its checkout page and limiting the whole procedure to a single page.

Installation

The installation process for the One Step Checkout extension has been made straightforward so that even non-tech personnel can install and utilize its functionalities.

There are two ways to install our extension- Manually and Using the Composer. Here are the detailed steps associated with the Installation-

Installation Guide:

1. From the Zip file
 - Unzip the zip file in ``app/code/``
 - Enable the module by running ``php bin/magento module:enable Tech9logy_OneStepCheckout``
 - Apply database updates by running ``php bin/magento setup:upgrade``
 - `php bin/magento setup:di:compile`
 - `php bin/magento setup:static-content:deploy -f`
 - `php bin/magento cache:clean`
 - Flush the cache by running ``php bin/magento cache:flush``
2. Using Composer
 - Make the module available in a composer repository for example:
 - private repository ``repo.magento.com``
 - public repository ``packagist.org``
 - public github repository as vcs
 - Add the composer repository to the configuration by running ``composer config repositories.repo.magento.com composer https://repo.magento.com/``
 - Install the module composer by running -
``composer require tech9logy/t91_onestepcheckout_extension``
 - enable the module by running ``php bin/magento module: enable`

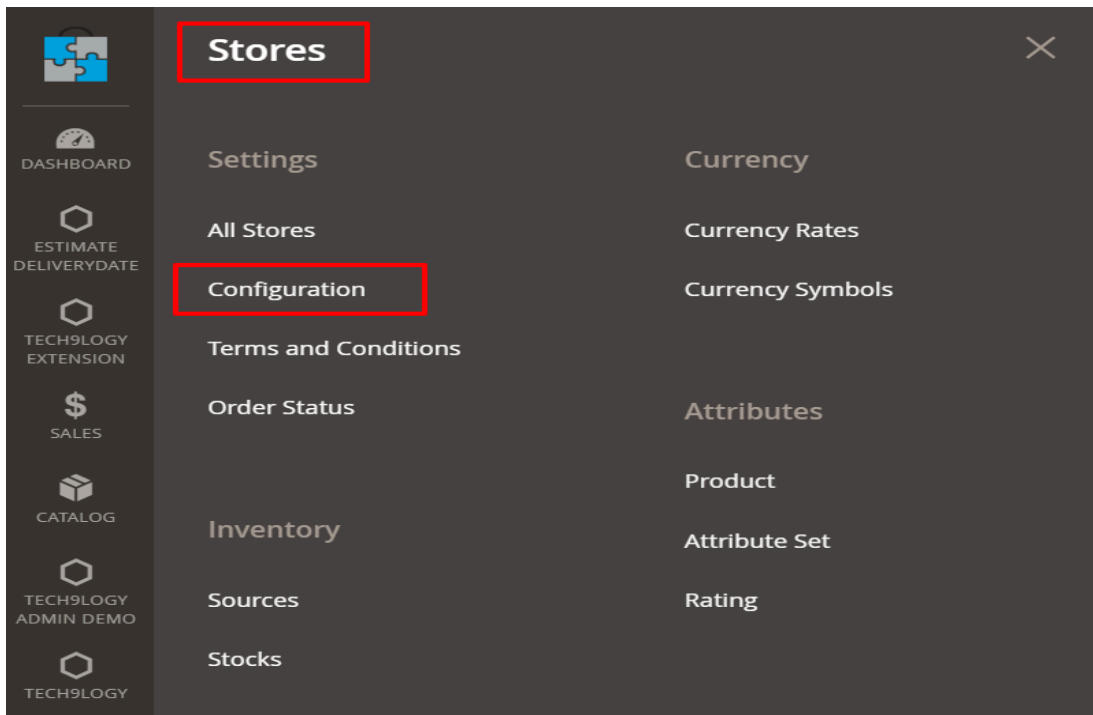

Tech9logy_OneStepCheckout`

- apply database updates by running `php bin/magento setup:upgrade`
- Flush the cache by running `php bin/magento cache: flush`

Configuration and Settings

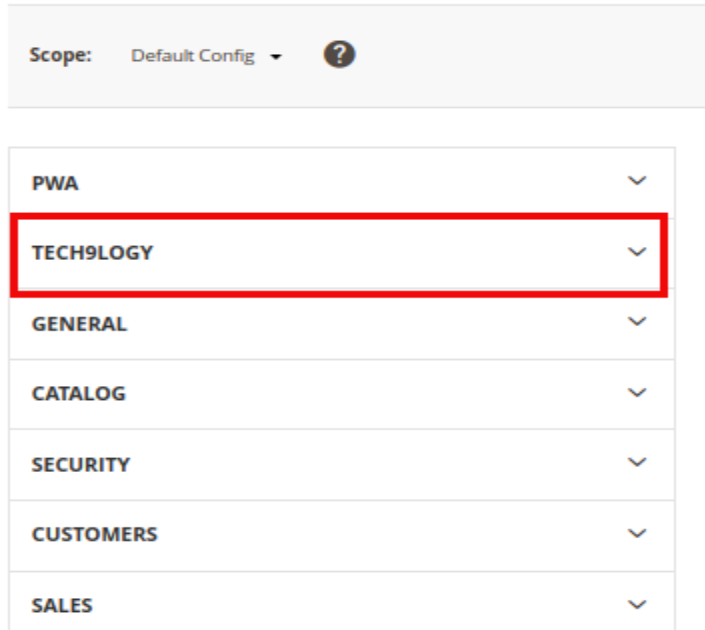

Here are simple steps to follow to configure the settings as per your preferences for our One Step Checkout extension-

- First, visit your Magento 2 Dashboard and click on “Stores”.
- Next, you have to click on Configuration.

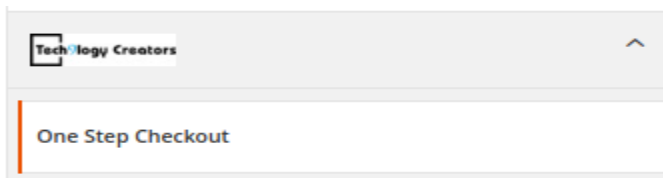

- On the next screen, you will see our brand name “Tech9logy”. You must click on it.

Configuration

- You must choose “One Step Checkout” from the given list of extensions to land on the configuration page. Here are the settings you will find on the configuration page of our extension.

FAQs

Ques: What is the One Step Checkout extension?

Ans: One Step Checkout extension is a useful extension developed by Tech9logy Creators that effectively eases the buying process and customizes the checkout page for your visitors as per your business needs.

Ques: How does this extension offer hassle-free checkout?

Ans: The manual checkout method is tedious and demands time to complete the purchase. Our extension skips the manual checkout method and offers a one-page checkout for customers that enables them to purchase products directly from the product page.

Ques: I want to enable this extension at the category level. Can I do so?

Ans: Yes, you can easily enable our extension at both category and product levels to save time for your customers.

Ques: What are the column layout options you can set on the checkout page?

Ans: The admin can choose from a two-column or three-column layout for the checkout page of their Magento 2 store.

Ques: How can I allow customers to add GST details to the order?

Ans: To allow entering GST for your customers, go to the backend and set the Enable GST Field to Yes.
