

# Documentation for Tathastu Theme

## Overview

Theme plays a crucial role in the performance of your website. A slow-loading or incompatible theme can push your customers away. Are you looking for an apt theme for your Magento 2 store?

We at **Tech9logy Creators** understand the importance of the Magento 2 theme for your business and that's why we came up with Tathastu. It is an impressive Magento 2 theme with multiple functionalities designed to revolutionize the user experience. This theme is devised to be user-friendly and highly responsive, with optimization for SEO and performance. Effectively elevate your online store's appearance and functionalities with this perfect Magento 2 theme!

## Installation

We have made the installation of our theme simple & straightforward to ensure that even non-tech personnel can effortlessly install and utilize its functionalities. You can do it either manually or using the composer. Here are the precise steps for installing this theme.

**Note:** We recommend backing up all your Magento files and database before switching to a new theme on your store. It will help you recover your eCommerce store in case anything goes wrong.

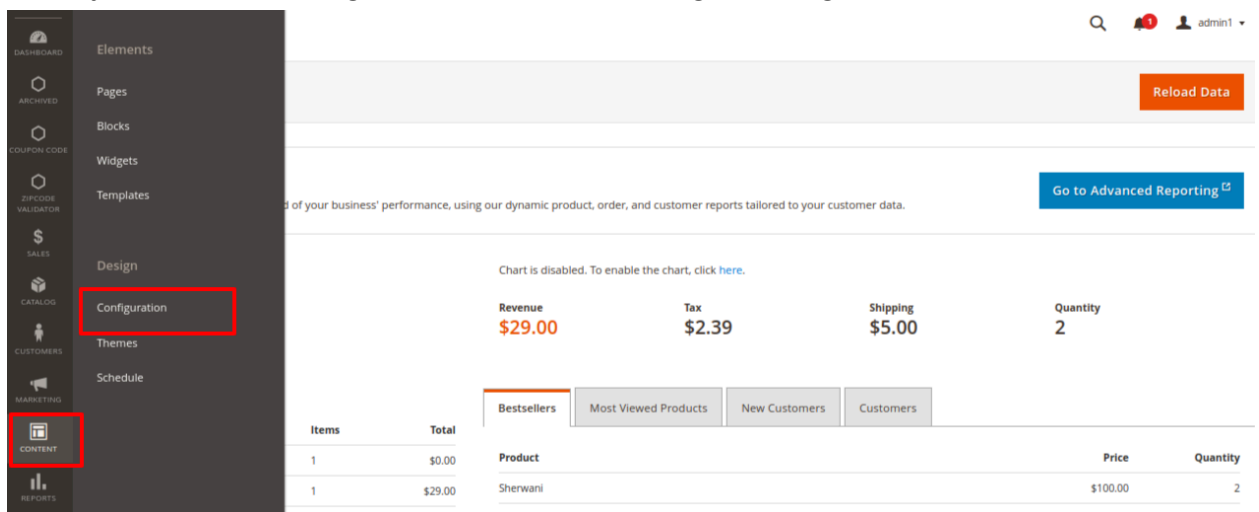

### 1. Using Composer

- Install the module composer by running `composer require tech9logy/module-auto-invoice-shipment``
- Enable the module by running `php bin/magento module:enable Tech9logy_Theme``
- Apply database updates running `php bin/magento setup:upgrade``
- Flush the cache by running `php bin/magento cache:flush``

## Configuration and Settings

Now that you've successfully installed our Tathastu theme, it's time to configure its functionalities as per your preferences-

- First, you must visit your Magento 2 Dashboard.
- Next, you have to click on Configuration under Stores.
- You will notice our brand name “TECH9LOGY” followed by configuration. You must click on it.
- From the given options, you must select “Tathastu” to land on its configuration page.
- Go to Enable Module, switch it to Enable option, and click on the Save Config button.
- After saving these settings, you must clear the cache by going to the System followed by Cache management.
- Now, you need to navigate to Content > Design Configuration.

The screenshot shows the Magento 2 dashboard interface. On the left, a dark sidebar contains a menu with various options. The 'Configuration' option under the 'Design' category is highlighted with a red rectangle. Below it, the 'CONTENT' option is also highlighted with a red rectangle. The main content area displays a 'Reload Data' button, a 'Go to Advanced Reporting' button, and a summary table with the following data:

Revenue	Tax	Shipping	Quantity
\$29.00	\$2.39	\$5.00	2

Below the summary table, there are tabs for 'Bestsellers', 'Most Viewed Products', 'New Customers', and 'Customers'. A table below the tabs shows the following data:

Items	Total	Product	Price	Quantity
1	\$0.00			
1	\$29.00	Sherwani	\$100.00	2

- Now click edit on Edit in the Default Store View

Design Configuration

3 records found

Default	Website	Store	Store View	Theme Name	Action
Global				Magento Luma	<a href="#">Edit</a>
Global	Main Website			Magento Luma	<a href="#">Edit</a>
Global	Main Website	Main Website Store	Default Store View	Magento Luma	<a href="#">Edit</a>

- In the Default Store View section, you must select Tathastu as your default theme.

Default Store View

Scope: Store View

← Back Save and Continue **Save Configuration**

Default Theme

Applied Theme  Use Default Value

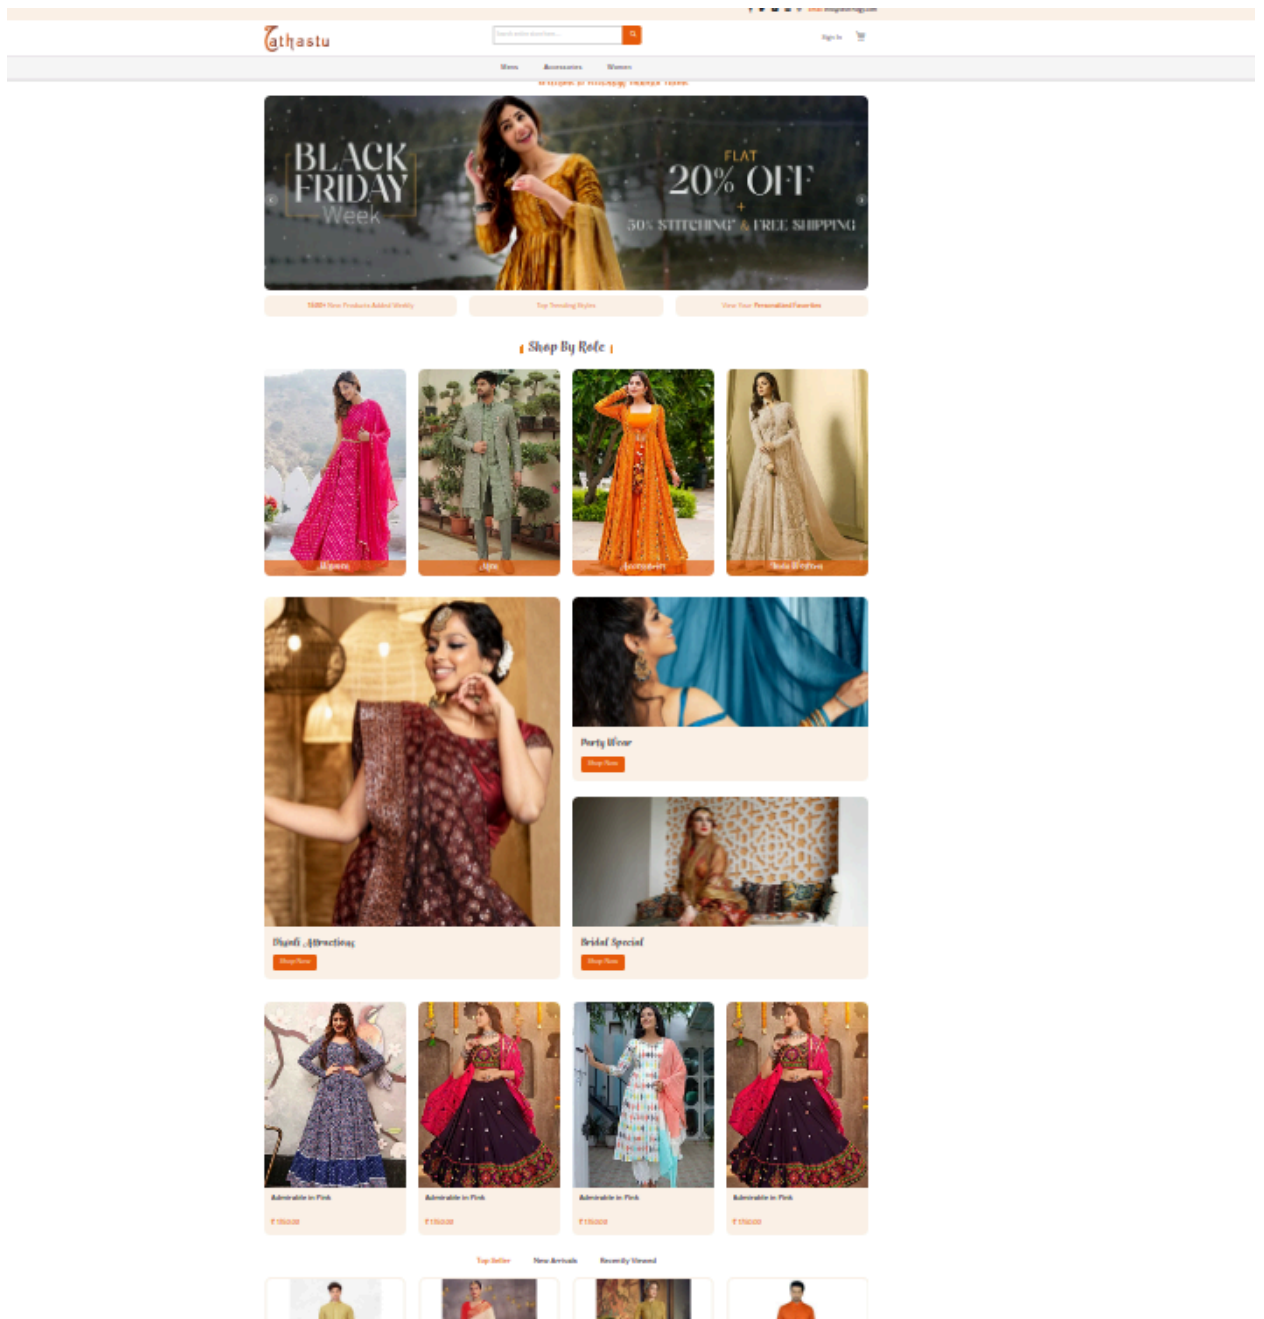

If no value is specified, the system default is used. The system default may be modified by third-party extensions.

Design Rule

- After this please select Tathastu theme inside the Applied theme dropdown and after selecting this click on the Save Configuration for save it.

Let's now move forward with Block changes in the theme. For this, go to Content > Blocks.

# 1. Home Page

- To edit the top header message on the home page, click on the **Home Page Notification Message Block** and modify it as per your preferences.
- If you wish to change the top header icons, edit the **Top Header Icons** block.

- To make changes to the theme logo icon, edit the block named **Home Page Logo Image**.
- To modify Banner Slider Settings, go to **Home Page Banner Slider** block.
- Go to the **Home Page USP Section** to edit the USP on your Magento 2 store.
- Visit the **Home Page Top Category Block** to revise top categories.
- To edit the Occasion section, rectify the **Home Page Occasion** block.
- To update the top products on your Magento 2 store, visit the **Home Page Featured Products** block.
- If you want to change the middle banner, edit the block named **Home Page Single Banner**.
- To adjust the accessories section, go to the **Accessories Block Home Page** block.
- Visit the **Client Diaries Block Home Page** block to edit the clients-served section.
- Alter the **Footer** block to bring the required changes in the footer section.

## 2. Category Page

- You can edit the banner image on the category page by uploading it to the **Category Page Banner Image** block.

## FAQs

**Ques: Why should I go for the Tathastu Theme?**

**Ans:** Tathastu is a fully responsive and customizable Magento 2 theme developed by Tech9logy Creators. It is a user-friendly theme loaded with multiple functionalities & designed to revolutionize the user experience. Moreover, our theme is also optimized for SEO and performance.

**Ques: Why is it recommended to take a backup before installing a theme on Magento?**

**Ans:** Having a backup before switching to a new theme on Magento is a good idea as it prevents you from losing crucial data in case of mishaps and enables you to retrieve your store.

**Ques: Can non-tech personnel install this Theme?**

**Ans:** We understand that installing a theme can sometimes be a hectic task. That's why our developers focused on enabling straightforward installation so that even non-tech personnel can easily use its functionalities.

**Ques: How do I configure the Tathastu Theme after installation?**

**Ans:** To configure our theme after installation, go to Configuration under Stores. Next, click on Tech9logy Creators followed by Tathastu. Here, visit the Enable Module, select Enable option, and click on the Save Config button.

**Ques: How do I edit the blocks on this theme?**

**Ans:** Visit Content followed by Blocks to edit the blocks on our theme. You can make the required changes in each block to personalize this theme as per your specific business needs.

**Ques: How do I make the Tathastu Theme my default theme?**

**Ans:** If you want to set the Tathastu theme as your default theme, go to Design > Configuration. In the Default Store View section, switch to Tathastu to set the same as your default theme.
